Microsoft Certified Partner

SAFETY DATA SHEET Compliance Solution

Lisam's enterprise-wide solution, ExESS®, creates, manages and distributes GHS-compliant safety data sheets (SDS) and labels for all major commercial markets. It leverages fully integrated regulatory and transportation content libraries and can generate output in nearly 50 languages.

ExESS functionality includes; chemical and inventory management, global volume tracking and reporting, regulatory status assessment, workplace safety and waste management. It provides easy-to-use tools to access current substance classification lists and performs automated classification and transport calculations.

Built on Microsoft Technology

As a Microsoft Certified Partner, Lisam has developed its' technology using Microsoft .NET to build highly secure and stable applications powered by solid performance – offers an easy to use, intuitive Microsoft interface. Being fully compatible with Microsoft Office products and tools makes the software easy to use, customize, tailor and implement, and allows for XML import and export functions.

ExESS automates the generation of SDSs and labels by offering copy/paste functions, imports and exports to Excel and document generation in both Word, Excel and pdf. It leverages Outlook, and is capable of information exchange with other mail-merge systems.

Easy Integration with ERP and Third Party Systems

ExESS provides a powerful, open strategy for integrating with customer and third party content. The software allows for real-time web services and API integration options with web applications, and batch integration with built-in integration tools. Lisam's customers evidence the successful integration of ExESS with many different ERP systems including SAP, JD Edwards, Microsoft (Dynamics, Navision, etc.), ProcessPro, Oracle/PeopleSoft, and others, as well as in-house ERP systems.

Choice of Integrated Regulatory Content Providers

Lisam Systems offers a wide variety of cost effective, integrated regulatory content options, such as Lisam OEL lists, EU GHS and REACH libraries, and US State/Federal lists. One key differentiator is that Lisam offers clients the choice of fully integrated third party regional libraries, including BIG for the EU, JCDB for Japan, SRICI for China, or ChemADVISOR's LOLI® for global content. All options include automated "push button" content updates.

For more information visit our global web site www.lisam.com and find your nearest location.

Professional Services Group

Lisam's professional services and support group offer a full array of services for ExESS software and EH&S needs worldwide, including: implementation, training, template or interface customizations for SDS, labels, and regulatory reporting.
